# DISCOVER THE LEGEND

Every season starts with a dream—bigger bucks, healthier herds, and the chance to make new memories. The Legendare seed drill helps that vision come alive.

Whether you're putting in warm-season plots for trophy antlers or planting cool-season crops to draw deer, Legendare is rugged, versatile, and easy to use. We took our knowledge from 20 years of making ag drills and used it to develop a whole new machine. A machine made for hunters—with features we knew hunters wanted.

From corn and soybeans to brassicas, clovers, and specialty blends, our drills handle it all with the reliability you need and the results you want.

Build better nutrition. Grow bigger bucks. Make memories to last a lifetime.

**PLANT BETTER  
PLOTS. GROW  
BIGGER BUCKS.**

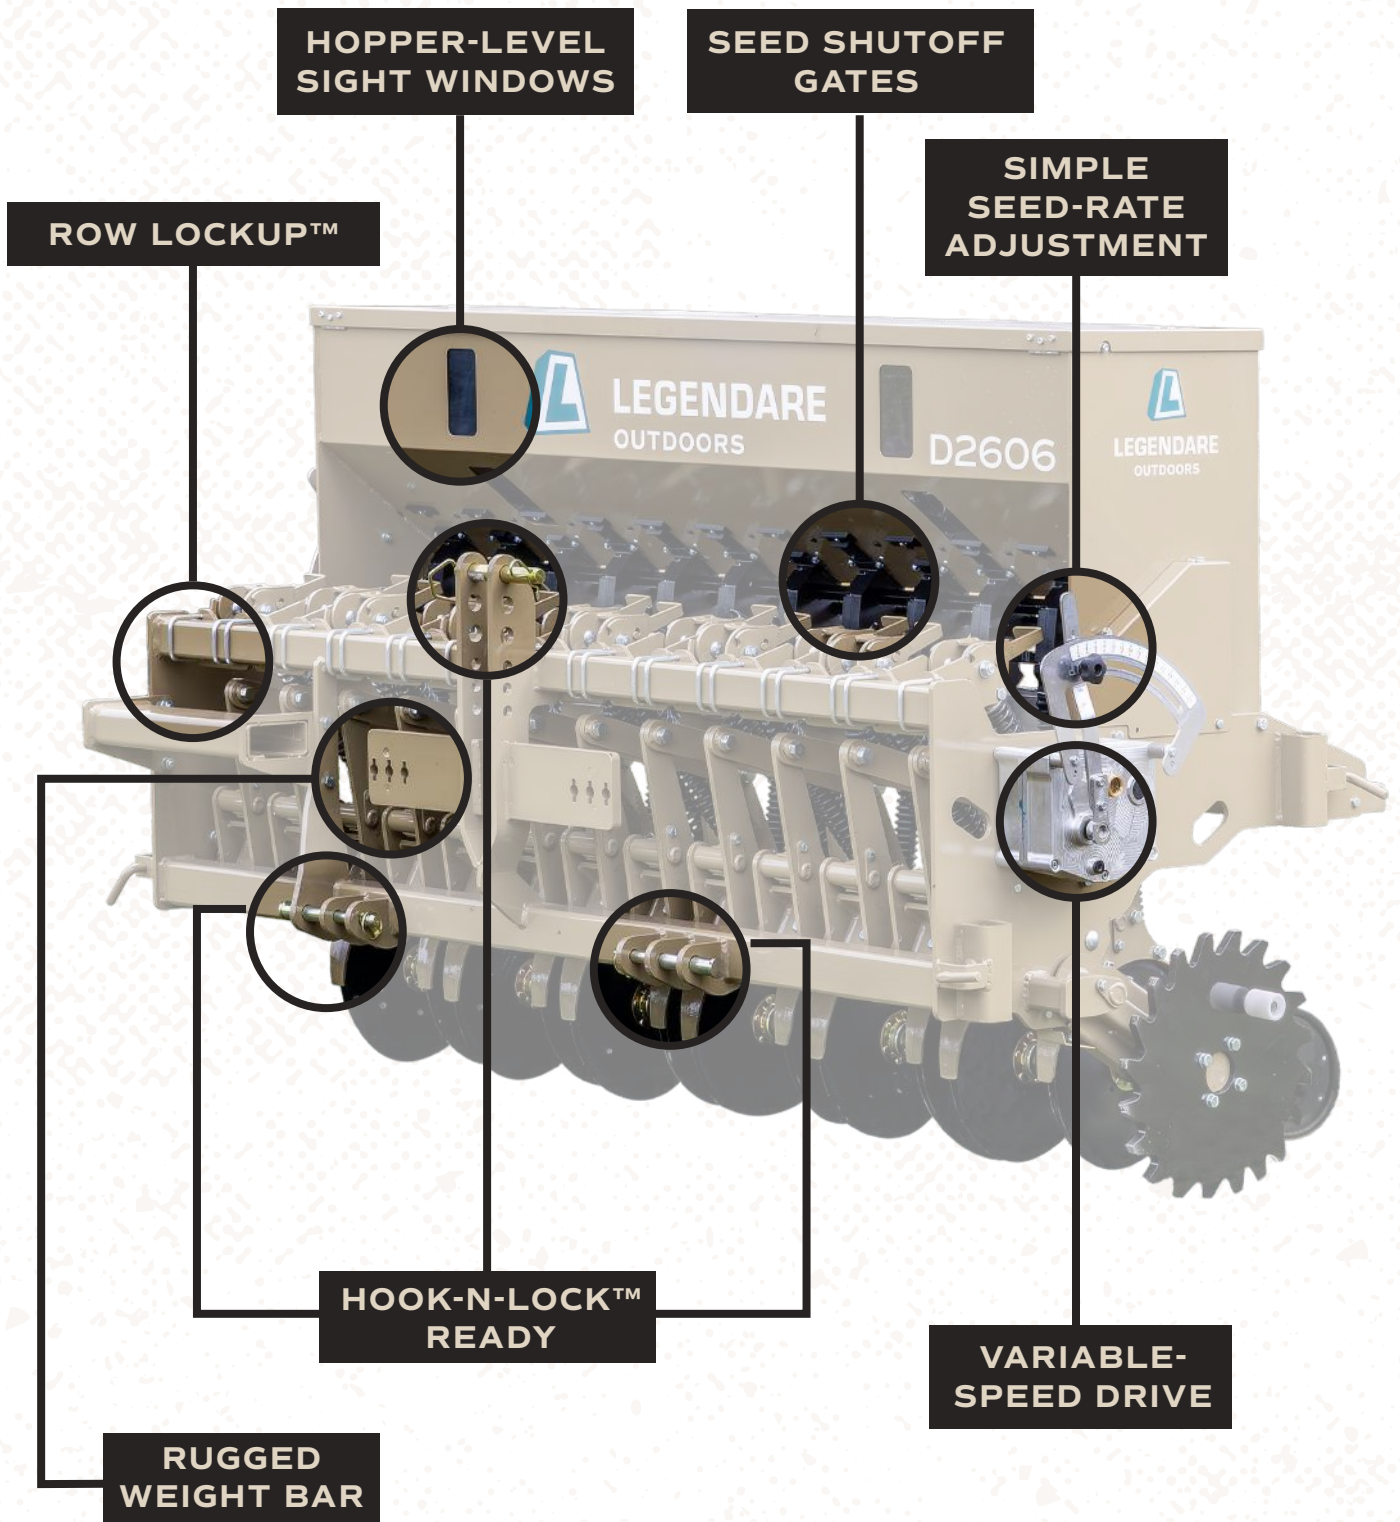

Successful plots have a healthy mix of plants, from corn to clover. Any drill worth its salt needs to excel at a range of seed sizes. Some drills struggle with corn, so we designed the Legendare as a kernel-planting powerhouse that also gives excellent results with smaller seeds.

With tight row spacing that's easy to adjust, prime plots come easy for the Legendare. No plowing, no discing, less compaction, allowing substantial moisture and organic matter retention! Enjoy thick stands with a single pass.

# ENGINEERED FOR...

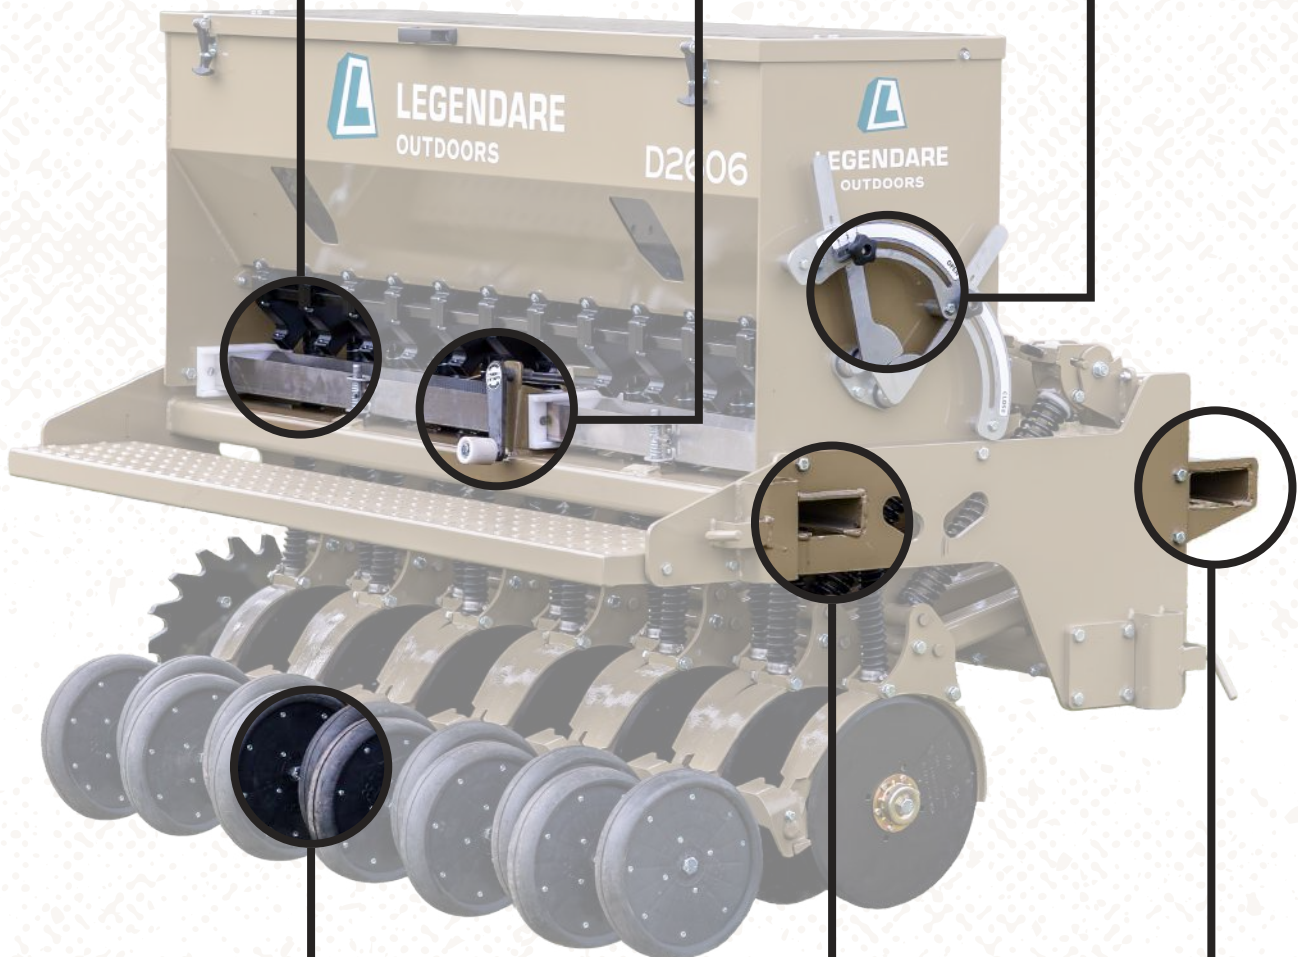

# ...THOSE WHO EXPECT MORE.

**SEED CALIBRATION AND CLEANOUT TRAYS**

**SINGLE-POINT SEED DEPTH ADJUSTMENT**

**EASY SEED CALIBRATION AND CLEANOUT**

**SPRING-LOADED PRESS WHEELS**

**EASY-LOADING FORK POCKETS**

# WE DID THE HARD WORK FOR YOU

In the end, you want a food plot that brings results. But you also want the experience to feel like play, not work. So we dreamed big and thought hard about design.

## Easy to maneuver and operate

- Fork pockets for ease of loading
- Quick-attach compatible
- Monitor seed levels from the tractor seat

## Simple set-up

- Simple calibration for seed efficiency
- Adjust all rows with a single crank - no climbing under the machine to adjust each row

## Built for results

- Spring-loaded press wheels
- 6" row spacing for better ground coverage
- Individual row lockups widen row spacing and focus down force where it's needed for planting corn and soybeans.

*“You’ve got to build a machine people want, not just the machine you want them to have. And Legendare has done it.”*

**—Ray Reeves**

*Genesis Wildlife Group*

# LOVE YOUR LAND. LIVE THE LIFE.

With a Legendare, you won't just wait for fall – you'll enjoy preparing for it with purpose. From the first pass in the spring, you'll know you're building something that matters. As your plots take root and grow, so will your anticipation of the season ahead.

Our drills aren't just machines – they're the start of seasons you'll remember for years to come. They help you grow more than food plots; they help you create memories, bringing family and friends back to the same fields year after year.

Hunting season doesn't last all year, but with a Legendare, it might just feel like it does.
